Dear Bhanu Prasad,

We are pleased to offer you the position of **"Frontend Web Developer"** at MikhVision Digi Solutions LLP. We believe that our team is our biggest strength and we take pride in hiring only the best and the brightest. We are confident that you would play a significant role in the overall success of the venture and wish you the most enjoyable, learning packed and truly meaningful internship experience. We hope you are excited to learn and work with the team.

The 3 months you will be paid per month, less all applicable taxes and with holdings, payable 5000/- and will be expected to work 5 days per week. Your internship with the Company is "at-will", which means that either you or the Company may terminate your internship at any time, by providing a notice without assigning any reason. However, the company may terminate this agreement forthwith under situations of in-disciplinary behaviour.

By accepting this offer of employment, you acknowledge that you must keep all of this information confidential and refrain from using it for your own purposes or from disclosing it to anyone outside the Company. I hope that your association with the Company will be successful and rewarding. Please indicate your acceptance of this offer by signing below and returning it to **operations@mikhvision.com.**

Roles and Responsibilities:

As a Frontend Developer Intern, your responsibilities will include but are not limited to:

- Assisting in the development and maintenance of responsive web interfaces using modern frontend technologies such as React.js.
- Collaborating with the design and backend development teams to integrate UI/UX wireframes into functional code.
- Participating in client projects by implementing features, fixing bugs, and improving UI performance in accordance with business requirements.

- Conducting regular testing and debugging of frontend code to ensure optimal functionality and user experience.
- Attending daily stand-ups, sprint planning, and other team meetings to provide progress updates and align on goals.
- Documenting code, workflows, and solutions for internal reference and future scalability.
- Staying updated with the latest frontend trends, tools, and best practices to contribute effectively to project development.

Terms and Conditions:

- No Laptop/PC will be provided intern. You should have your own laptop/pc with internet facility.
- The stipend will not be processed until you pass the training period with approval of seniors.
- You should never disclose any kind of information regarding projects or compliances to the third party if done, the agreement will be terminated and they will be informed to respected placement officer of the respected college/university.
- You must provide a proof as full-time enrolled student of your respected college/university.
- In case of resignation as intern you need to inform at least a week before to the operations officer.

Warm regards,

Shyam Prasad Reddy
CTO & Co-Founder
